

SOCIOLOGY (SO)

SO 500. Social Science Research Methods.**3 Credits.**

In this course, students not only learn about what social scientists know, but also focus on how they know what they know. Students learn about the ways social scientists gather information in the study of our social world, how to do sociological research and how to evaluate the research of others. This is an active learning class in which participants learn by doing. In the beginning of the course, students focus on the fundamentals of research including the scientific method, the complexity of social research, ethics in research, value-free research and research design. This course is restricted to medical students only.

Prerequisites: None**Offered:** As needed
